5G⁺ Network Solutions

Pop-Up Network Kits

Our network-in-a-box solution is designed for rapid deployment in remote, temporary, or emergency situations. These kits provide instant, secure, and reliable network access with minimal setup.

Neutral Host Networks

Enables seamless, carrier-agnostic connectivity for large venues, campuses, and enterprises with our Neutral Host Solutions. Utilizing shared network infrastructure can enhance indoor and outdoor coverage, ensuring uninterrupted service across multiple carriers while reducing costs.

Private 5G Networks

Onesource provides extensive design and support services for private cellular networks. Leveraging our collaboration with Ericsson, a leading player in the cellular sector, Onesource distributes and maintains Ericsson Cradlepoint equipment.

Hybrid-WAN Solutions

JANUS *Hybrid WAN for High Availability*

A plug-and-play hybrid connectivity solution that seamlessly integrates cellular and **Low Earth Orbit (LEO)** satellite technology into existing networks. With minimal to no integration required, JANUS ensures uninterrupted connectivity for mission-critical operations.

HYDRA *Intelligent Network Integration*

HYDRA integrates multiple network types, including traditional copper, fiber, cellular, and satellite connectivity, for multi-faceted network resilience. Additionally, Hydra incorporates **Ericsson's NetCloud SASE** platform with Zero Trust Network Access (ZTNA), ensuring a secure and optimized networking environment.

Core Services

With offices in Houston, Texas and Eindhoven, Netherlands, OneSource Building Technologies (OSBT) has been servicing our clients in over 94 countries for over 20 years. Our mission is to provide innovative, transformative, world-technology services and solutions with unparalleled support.

Manged Services

- LAN-WLAN Engineering & Design
- Wi-Fi Design & Deployment
- Solutions Architecture
- Cloud Solutions
- 5G Surveys & Deployments
- Global Project Management

Installation

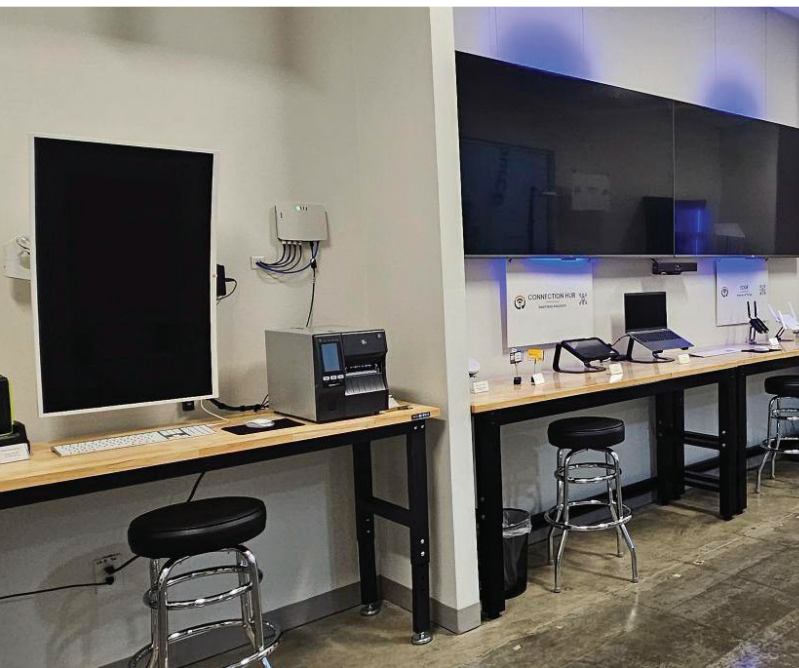

- Break/Fix Support
- Dmarc Extensions
- VOIP Deployments
- POS Upgrades
- MACD
- LAN/WAN Drops
- Network Equipment Installations
- Device Configuration
- TTU Support

Logistics Services

- Warehousing
- Inventory Management
- Account Management
- Dedicated Personnel
- Staff Augmentation
- Co-Branded Facilities
- Annual Audits
- Global Shipping & Tracking
- TTU Support

Outside Plant & Structured Cabling

- Structured Cabling – Copper & Fiber
- Data Center Relocations & Transformation
- Underground Pathway Solutions
- Aerial Pathway Solutions
- Paging Systems
- Complex / Large-Scale Installations

Center of Excellence

Located at our Houston Campus, the OneSource Center of Excellence is a hands-on innovation hub where clients and partners can explore, test, and optimize 5G, hybrid WAN, and enterprise connectivity solutions in a real-world environment. Designed to showcase, enable, and educate, the COE provides a collaborative space for network design, proof-of-concept testing, and solution validation with expert guidance from the OneSource team.
