

Pop-up Network Kit

We are proud to introduce the OneSource Pop-up Network Kit, a comprehensive solution designed to ensure seamless connectivity and operational continuity in emergency situations.

The Pop-up Network Kit is a network in a box solution that covers a wide range of challenging scenarios such as network failover or day 1 connectivity. The emergency kit can be the backbone of a small to mid-size network.

At its core is a ruggedized locking 6U rack with a handle and wheels for easy transport, providing mobility and durability when time is of the essence. Housed within this robust framework is an Ericsson Cradlepoint E Series Router of your choice.

Choose Your Model & Payment Plan

- Ericsson Cradlepoint E3000 router
- Custom antenna rail for wifi and Cellular antennas
- 1U locking drawer
- 12 port front facing patch panel
- 9 port PDU
- 4U portable rack
- 1 modem with 2 sim slots (Active/Standby)
- **Direct Buy - \$3,500**

Choose Your Provider

- AT&T / T-Mobile / Verizon
- Activated 5G capable sim
- Billed for months it is active
- Can be suspended and reactivated on demand with 1-month minimum billing
- Must give at least 48 hours' notice for activation from a suspended state
- **\$85 per Month**

Site Survey

- Site survey for up to C-band
- Includes LTE & 5G testing, up to 5 readings
- **Additional \$450**

Upgrade Option

- A modular modem upgrade adds a second modem with 2 additional sim slots to an E300 or E3000 allowing for Active/Active connections.
- This is only needed for customers who require seamless failover or load balancing between two cellular connections.
- **Additional \$750**
